

**Presents**

## **CivicCenter-CVI Wireless Access Point**

**Only \$9.95 per day, \$24.95 per 3 day or \$49.95 per week**

**Follow these easy instructions to get connected.**

If you **do not see** a Wireless ICON in the System Tray\*

Note\* The System Tray is by the clock – Computer with waves coming from the side.

### **START HERE**

Open Network Control Panel

Click → Start → Settings → Control Panel → Network Connections

Right Click on your wireless adapter and Click View Available Networks.

If you **do see** the ICON

### **START HERE**

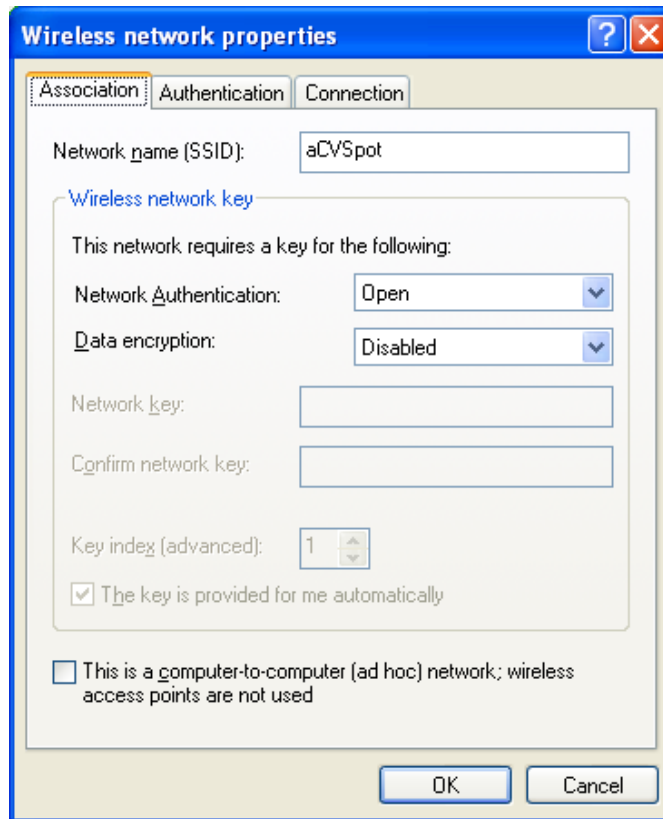

Right Click On the Icon → click '**View Available Wireless Connections**'.

Double Click **CivicCenter-CVI**

If you do not see **CivicCenter-CVI** in your list of connections, chances are you are out of range.

Verify the following.

- 1) If you have an internal wireless card, make sure the switch on the case of your computer is turned on.
- 2) Open Wireless Connections → click "Change the order of Preferred Networks" → click Add

- 3) Type **CivicCenter-CVI** for the SSID → Click OK
- 4) If you are in Range, the connection should now be listed.

Once connected you will be routed to the following page when you open a browser..
